Fire Rated Shade Fabric

Polytex® A superior fire rated knitted HDP shade fabric designed for use in modular shade structures and shade sails. Recommended for residential and small commercial installations with unsupported spans of 25 feet or less.

Weight: 7 oz. per square yard

Available in 12.5 feet (width) x 100 feet (length) center folded rolls.

Polytex and Comtex comply with the following fire codes:

- ASTM E-84 Class A
- California State Fire Marshal 13115
- NFPA 701-2004

Polytex® and Comtex® are registered trademarks of Polyfab USA LLC

Polyfab shadecloth has excellent fade resistance but all outdoor fabrics are subject to gradual fading over time. Some colors have a tendency to fade more than others.
